

Product modification – XMP-TMC3600

Dear Sirs,

Due to numerous inquiries and requests of our system partners regarding design and function of the present series XMP-TMC36x3, from now on the order numbers will change. All new orders will be delivered in the new design and in part with extended functions:

Modifications concerning design:

- In the future the aluminium frame will be delivered in colour silver and no longer in black.
- Standardly front of reader will all-over be of glass instead of adhesive foil
- Keyboard and function keys with background lighting

Added functions:

- SAM socket on read head (only for XMP-TMC3657)
- Playing of melodies and volume adjustment of beeper (only for XMP-TMC3657)

Previous order number	New order number
XMP-TMC36*3-**-**	XMP-TMC36*7-**-**

* = is a placeholder for the individual reading method (3 = HITAG, 5 = MIFARE, 7 = LEGIC)

** = is a placeholder for the different variants (PoE, power supply, with/without biometrics etc.)

For any further questions we are always at your disposal.

Best regards,

Your AUTECH - Team
